LEADERSHIP: COMPASSIONATE LEADERSHIP

Overview of the Course

This one-day masterclass is designed for senior leaders to spend time in a supportive environment with peers to explore key concepts of being a leader including some of the underlying perceptions and potential barriers to embracing the leadership role.

We will spend time understanding what it means to be authentic and compassionate whilst operating in a systems environment.

The day will pose questions and provide 'food for thought' on what is needed in order to overcome common leadership challenges. It will build practical techniques to enable you to be your authentic best in today's often challenging, working environment.

Our workshop sizes are kept to a maximum of 12 delegates to ensure so that they are experiential and our experienced trainers have time for individual input.

Who is it for?

Senior Leaders who want to deepen their understanding and skills for managing some of the lesser-recognised obstacles that can get in the way of achieving our full potential whilst remaining authentic.
