

Online Half day

MINDSET: THINKING DIFFERENTLY (VIRTUAL)

For this virtual session you will need:

- ✓ a laptop or PC with audio and video capability
- ✓ a good, strong internet connection
- ✓ a quiet space (headphones are useful but not essential)

Overview

Covid-19 has provided us all with an opportunity. It has created the circumstances for us all to have to think differently, both in our personal and professional lives, so that we can rapidly adapt to a new and unfamiliar situation.

In the world of business, it has always been the case that those that will ultimately survive will be those that are able to understand how to create a culture of creative thinking.

During this course we will blow away the notion that creativity is a skill reserved for only a few and we'll teach you how to approach things from different angles.

Who is it for?

This course is for anyone in business (including both managers and individuals) looking to develop a more creative streak, in order to adapt more quickly to new circumstances, create new business opportunities and find solutions to current challenges.

What will you learn?

We'll explore how we can tap into a different way of thinking and the benefits this will bring for our organisation.

We'll take a look at the personal and professional barriers to thinking differently and how to overcome them.

Throughout the course, we'll provide you with a wide range of tools you can take away and instantly apply to your own organisation.

Timings

This virtual session runs from 09:30am - 13:00pm, with breaks included.

BENEFITS OF THE COURSE

By the end of this course ...

... you'll have the confidence to think more creatively about issues facing your business or your role, so that you can find new, alternative ways to succeed

This course will be run on the Zoom video conferencing platform.

If you've never used Zoom - or any other video conferencing platform - before don't worry, it's quite straightforward!

Before the session, we'll send you instructions to help you get started. The key thing is to ensure that your video and audio settings are working, which you can test before the session.

All you'll need is a laptop/PC with audio and video capability, a good internet connection and somewhere quiet to sit and share a 'virtual learning space' with us for 3.5 hours.
